

## **SUBJECT: SEARCH AND INTERROGATIONS OF STUDENTS**

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband/prohibited items seized on school grounds or in a school building by an authorized School District official (as designated below) only when the School District official has reasonable suspicion to believe the student has engaged in or is engaging in proscribed activity which is in violation of the law and/or the rules of the school (i.e., the District Code of Conduct).

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student's school record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed;
- d) The probative value and reliability of the information used as a justification for the search;
- e) The school official's prior knowledge of and experience with the student; and
- f) The urgency to conduct the search without delay.

The Superintendent, Building Principals, and School Nurse are authorized to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will produce evidence that the student has violated or is violating the law and/or the Code of Conduct.

If reasonable suspicion exists to believe that a student has violated or is violating the law and/or school rules, it is permissible for an authorized school official to search that student's outer clothing, pockets, or property. The search may include, but is not limited to, the student's outer clothing such as a jacket or coat, pockets, backpack, and/or purse. Searches will be conducted by an authorized staff member. Whenever possible, another staff member will be present as a witness.

### **Strip Searches**

A strip search is a search that requires a student to remove any or all of his or her clothing. A request to remove an outer coat or jacket does not constitute a strip search. Strip searches are intrusive in nature and are not permissible. If school authorities believe there is an emergency situation that could threaten the safety of others, the student shall, to the extent practicable, be isolated and secured. Police and parents will be contacted immediately.

### **Searches and Seizure of School Property**

Student desks, lockers, textbooks, computers, and other materials, supplies or storage spaces loaned by the school to students remain the property of the school, and may be opened and inspected by school employees at any time. Students have no reasonable expectation of privacy with respect to school property; and school officials retain complete control over such property. This means that student desks, lockers, textbooks, computers, and other materials, supplies or storage spaces may be subject to search and/or seizure of contraband/prohibited items at any time by school officials, without prior notice to students and without their consent.

### **Parent Notification**

The student's parent or guardian will be notified if any illegal, prohibited, or dangerous articles or materials are found in the student's locker, vehicle, or other property or possessions, or on the student's person, as a result of a search conducted in accordance with this policy.

### **Documentation of Searches**

The designated school official conducting the search will be responsible for the custody, control and disposition of any illegal, prohibited or dangerous items taken from the student. The school official or his or her designee must clearly label each item taken from the student and retain control of the item(s) until the item(s) is turned over to the police or secured by alternate means.

### **Questioning of Students by School Officials**

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian may be contacted; the degree, if any, of parental/guardian involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

**SUBJECT: SEARCH AND INTERROGATIONS OF STUDENTS (Cont'd)**

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

**Law Enforcement Officials**

It shall be the policy of the Madrid-Waddington Central School District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions.

**Interrogation of Students by Law Enforcement Officials**

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations or general questions regarding crimes committed on school property. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardian.

Whenever police wish to question a student on school premises, administration will attempt to notify the student's parent/guardian.
